

Professional Engineer #0766

Short Elliott Hendrickson Inc. (SEH[®]), a multidisciplined consulting firm, has an opening for a Professional Engineer in our Lakewood, CO office. SEH is a team-oriented firm providing challenge, personal growth, and career advancement opportunities. We are looking for individuals who want to be part of a team that provides exceptional service to our clients.

Candidate must have a Bachelors Degree in Civil Engineering or related field and is a licensed Professional Engineer in the State of Colorado. We are looking for someone with a minimum of 12 years experience in the Colorado market including project manager experience. Experience in proposal and client management preferred. Candidates must have project experience in the areas of hydrology studies, open channel hydraulic design, storm sewer systems and multi-disciplinary drainage projects. Candidates with this related experience and a minimum of 10 years in the water resources field will be considered. Experience with the following software programs is required; HEC-RAS or equivalent, HEC-HMS, SWMM or equivalent. A Masters Degree in Civil Engineering or related field and/or Certified Flood Plain Manager Accreditation preferred. Responsibilities include project management, design of drainage and municipal projects and interfacing with clients. Limited field inspections and day travel is required; some overnight travel may be required.

For confidential consideration, please send resume and salary requirements to hrcareers@sehinc.com or fax to 612.758.6701. **Please refer to Job #0766.**
