

CASFM Northwest Region Social

Who: All CASFM members

What: Peggy Bailey, PE of Tetra Tech will provide a talk about the Dike along the Colorado River south of downtown Grand Junction. Bret Guillory, PE, the City of Grand Junction's Utility Engineer, will also discuss the recent re-certification process done through the COE. We will then take a walking tour of the dike. This Dike removed much of downtown from the 100-year floodplain. Afterwards we will gather at the Rockslide Brewpub for drinks and appetizers.

When: May 25, 2010 at 4:00 p.m.

Where: Meet at the Botanical Gardens Library at 639 Stuthers Avenue which is just south of South 7th Street and the Riverside Parkway. The library is the western most building. Afterwards meet at the Rockslide at 4th and Main in downtown. With luck the "Main Street Uplift" project will be complete by then.

Why: Because we will learn something and have free food and drink.

Questions: Call Rick Dorris at 970-256-4034.
