Water Resources Project Engineer/Manager

1525 Raleigh St, Denver, CO 80204, USA
Full-time

Company Description

We are Olsson, a team-based, purpose-driven engineering and design firm. Our solutions improve communities and our people make it possible.

Our most meaningful asset is our people, and we are dedicated to providing an environment where they can continue to learn, grow, and thrive. Our entrepreneurial spirit is what has allowed us — and will continue to allow us — to grow. The result? Inspired people, amazing designs, and projects with purpose.

Job Description

Olsson takes on anything from backyard flooding problems in a community to the complex challenges presented with watershed management, irrigation districts, and recreational facilities. As a Water Resource Engineer, you will provide various engineering and project management duties related to evaluating, designing, and constructing projects. You may assist with developing the project scope and schedule, project documentation, and reviewing shop drawings. Travel may be needed to job sites for observation in all types of terrain and weather conditions, as well as project sites in various stages of construction. Opportunities to mentor younger or less experienced staff may be available along with client relations.

Qualifications

You are passionate about:

- Working collaboratively with others
- Having ownership in the work you do
- Using your talents to positively affect communities

You bring to the team:

- Degree in civil or environmental engineering
- Licensed Colorado Professional Engineer, or ability to obtain within 6 months
- 8-15 years of related full-time water resources engineering consulting experience
- Ability to contribute and work well on a team
- Strong communication skills
- Ability to lead an engineering design team in completing technical tasks and to serve as a project manager for water resources engineering design projects
- Experience in preparing and evaluating hydraulic and hydrologic models using SWMM, HEC-RAS, HEC-HMS, or other relevant modeling programs
- Experience in AutoCAD Civil 3D or other related software experience
• Passion for detailed work
• Desire to lead and mentor junior engineers

Additional information

Olsson is a nationally recognized, employee-owned firm specializing in planning and design, engineering, field services, environmental, and technology. Founded in 1956 on the very mindset that drives us today, we’re here to improve communities by making them more sustainable, better connected, and more efficient. Simply put, we work to leave the world better than we found it.

As an Olsson employee, you’ll receive our traditional benefits package (health care, vision, dental, paid time off, etc.), plus you’ll:

• Become an owner in the company after your first year through our Employee Stock Ownership Plan (ESOP)
• Engage in work that has a positive impact in communities
• Receive an excellent 401(k) match
• Participate in a wellness program promoting balanced lifestyles
• Benefit from a bonus system that rewards performance
• Have the possibility for flexible work arrangements

Olsson is an EEO employer. We encourage qualified minority, female, veteran and disabled candidates to apply and be considered for open positions. We do not discriminate against any applicant for employment, or any employee because of race, color, religion, national origin, age, sex, sexual orientation, gender identity, gender, disability, age, or military status.
