

2023 CASFM

ANNUAL RESEARCH GRANT

Do You Have a Research Project that Needs Funding?

As stewards of stormwater principles and practices, the Colorado Association of Stormwater and Floodplain Managers (CASFM) supports engineers, academics, friends, and colleagues in their pursuit of stormwater affiliated research. Each year, we offer a grant for stormwater-related research funding, and that money could help you! In 2023, we will be offering one **\$2,500 grant!**

About CASFM:

CASFM is an organization of professionals involved in floodplain and stormwater management, water quality, flood hazard mitigation and flood preparedness. CASFM works to reduce the loss of human life and property from flood and storm damage while also improving the environment.

Grant Eligibility:

The grant is available to CASFM members and non-members alike. Recipients shall contribute to the fields of floodplain and stormwater management, water quality, flood hazard mitigation, or public outreach.

To Apply:

To apply for the grant, please send a research proposal to lisa.lauver@stantec.com. Proposals shall be less than 500 words. The proposal should describe the project, its implementation and goals, and address the following topics, as applicable.

- How does the proposed research/program benefit floodplain or stormwater management?
- How does the proposed research/program advance the protection of human life and property from flooding?
- How does the proposed research/program benefit water quality?
- Will the proposed research/program reach others? Will it educate others or be shared amongst the community?
- Does the proposed research/program benefit Colorado?
- Need for funding - What funding resources are being used for the project?

Deadline for Proposals:

November 10, 2023

A winner will be selected and contacted by December 17, 2023. To learn more about CASFM, visit casfm.org
