Purpose

Promote interest in the CASFM organization and their goals among students and the engineering community. Applicants must be enrolled in a graduate program closely related to CASFM's goals at a college or university in Colorado and be registered to take at least 3 credit hours of coursework per semester. Eligible programs of study include, but are not limited to: hydrology, hydraulics, watershed management, floodplain management, stormwater management, stormwater quality, emergency response, meteorology, and climatology. The scholarship recipient will also have the option to make a brief presentation on their research project at the 2026 CASFM Conference to be held September 15-18 in Steamboat Springs. Registration and three nights' lodging at the conference are included if the recipient commits to making a presentation by the registration deadline (typically in August). Visit www.casfm.org for more information.

Selection Process

Three applicants will be shortlisted based on this application, one-page resume, and a short essay describing their personal and career goals and how they relate to the goals of CASFM. Preference will be given to local applicants. Short-listed applicants will be notified by **November 12, 2025**. A panel will hold a short (approximately 20 minute) interview with short-listed applicants in mid-November. The successful candidate will be notified by **December 1, 2025**. Funds will be disbursed by check directly to the student. Previous recipients of a CASFM scholarship are not eligible.

Permission to Release Information

By signing this application, I certify that the information contained in this application is true and correct, and I authorize CASFM and its delegates to confirm and/or release any information included on this application. Signature is required to be considered for this scholarship.
